# Powering Learning Environments Worldwide

# INTRODUCTION

We understand the challenges of developing and deploying learning initiatives for a captive and open audience. We work with clients closely to understand their business realities and develop products and services that are focused on delivering value to all stakeholders.

We offer one window for all kinds of learning development needs packaged as a one stop solution from the vStacks' stable.

We call it eZnetLMS, a simple easy to use tool which provides you with an exciting array of features to suit your learning management needs.

Our strong team led by industry experts has the experience to understand your needs and customize accordingly to deliver a world class solution at your doorstep.

# Features

**eZnetLMS**

eZnetLMS is a Cloud-powered application providing an all-inclusive solution to manage your workforce. The company data is hosted on the Cloud, which means both you and the individual employee can manage information that concerns you. The application is easy to use, runs in a secure environment, and flexible enough to integrate with existing systems.
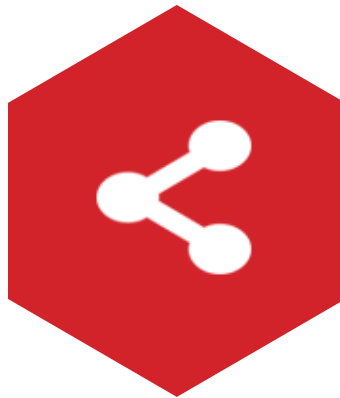

**EMPLOYEE MANAGEMENT**

**CENTER MANAGEMENT**

**COURSE MANAGEMENT**

**CLASS ROOM MANAGEMENT**

**ON JOB TRAINING MANAGEMENT**

**CALENDAR MANAGEMENT**

**PAPER MANAGEMENT**
